Numbers and Dates — *practice on paper*

You have built the lesson — now lock the pattern in, brick by brick. New invoices, same mirror rule.

BRICK 1 · SORT THE POINT AND THE COMMA · APPROX. 4 MIN

Read each figure quietly in English. If the mark introduces decimals, the figure goes in the left column. If it groups thousands, it goes in the right one. Careful: German instinct suggests the opposite every time.

BRICK 2 · FILL IN THE MISSING WORD OR FIGURE · APPROX. 6 MIN

Some gaps take a word, others take a figure. First decide what you are dealing with: a date, a year or the way a figure is written.

- 01 The site audit is scheduled _____ the ninth of September.
- 02 Our budget year ends _____ March.
- 03 The order is for 8,400 units — say "eight _____ four hundred".
- 04 We agreed a rate of 10.75 euros — say "ten _____ seven five".
- 05 Our first branch opened in 1996 — say _____ .
- 06 The lease ends in 2031 — say "twenty _____ ".
- 07 The office opened in 2005 — say "two thousand _____ five" in British English.
- 08 Write one thousand eight hundred in English figures: _____

BRICK 3 · FIND AND CORRECT THE MISTAKE · APPROX. 7 MIN

Each sentence hides exactly one mistake with a date, a year or a figure. Underline it and write the whole sentence correctly.

01 The handover report is due in the twenty-first of October.

.....

02 We ordered 2.000 brochures for the trade fair.

.....

03 The unit price in the quote is 8,75 euros.

.....

04 The plant was built in nineteen hundred eighty-four.

.....

05 Our American client says the kick-off is on June nine.

.....

06 German Milliarde is the same as English trillion.

.....

BRICK 4 · WRITE YOUR OWN SENTENCES · APPROX. 8 MIN

Write one sentence from your own working day for each prompt. Then check every date, every year and every mark inside a figure.

01 Delivery date: "We will deliver on the ... of ..." — then write the same date the American way.

.....

02 Payment deadline: "Payment is due on the ... of ..." — pick a day in your next quarter.

.....

03 Company history: "Our Berlin office opened in ..." — say the year as two pairs.

.....

04 Quantity and price: "We need ... units at ... euros each." — one comma and one point in a single sentence.

.....

MINI-CHECK — CAN I DO THIS YET?

- ☐ I say a date with an ordinal: "the ninth of September", or "September ninth" in American English.
- ☐ I use "on" for a single day and "in" for a month or a year.
- ☐ In English I write 1,800 for thousands and 8.75 for decimals.
- ☐ I know that Milliarde is billion and that German Billion is trillion.

Check only when you have finished. Every answer comes with the **why** — the rule matters more than the result.

Your sentences may differ — just check the ordinal, the preposition and where the point and the comma sit.
